R-Note Digital Signature needed to be validated before printing & submitting to Accounts for bill processing.

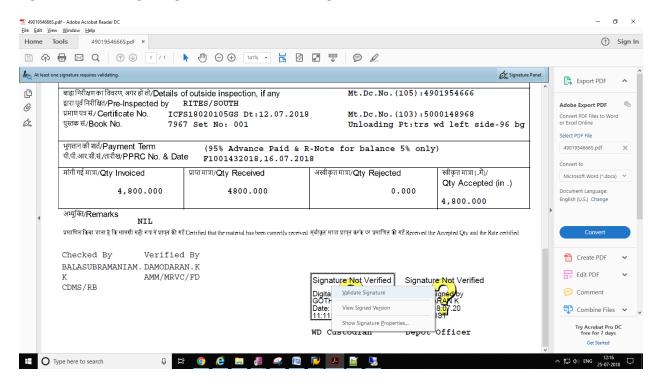

How to Validate R-Note Digital Signature?

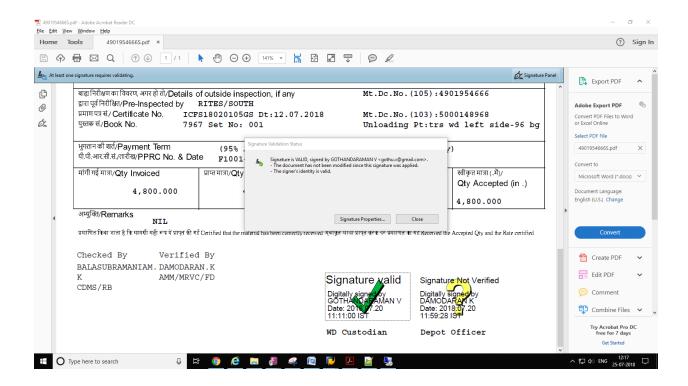

If the R-Note digital is not verified as shown below "Signature Not Verified", Validate the Digital signature as shown below, open the document in **Adobe Acrobat Reader DC.**

If you do not have an Adobe Acrobat Reader, please visit the following link to download it: www.adobe.com/products/acrobat/readstep2.html

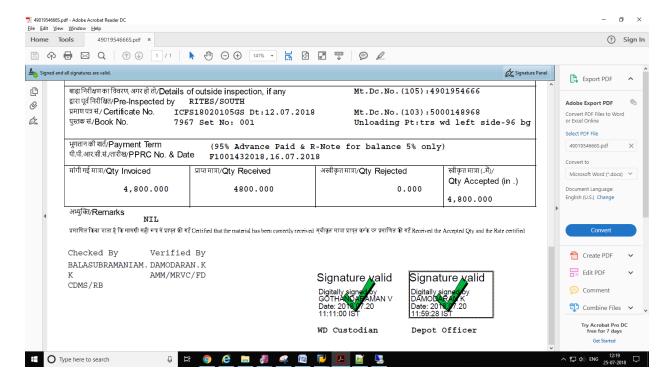

Right click on the Digital signature & click validate signature

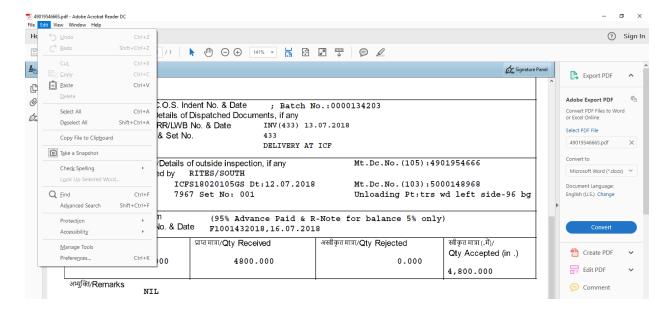

Now digital signed R-Note is validated "Signature valid". Do the same for other signatures

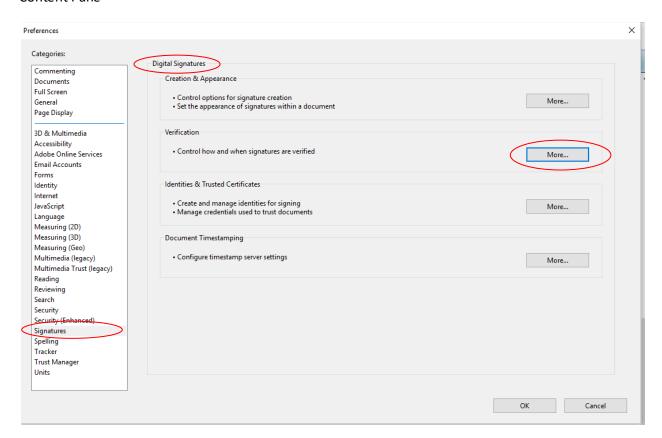

You can set Digital Signature validating "ON" by default while opening any document as shown below,

Click "Edit" in Adobe Acrobat Reader DC, go to "Preferences"

Click on "Signatures" in Left Content Pane, And the Click "More" in Verification box in digital signatures Content Pane

Check on "Verify Signatures when the document is opened"

Check on "When the document has valid but untrusted signature"

75	
When document has valid but untrusted signatures, pro	mpt to review and trust signers
Verification Behavior	
When Verifying:	
\bigcirc <u>U</u> se the document-specified method; prompt i	f unavailable
\odot Use the <u>d</u> ocument-specified method; if unavail	lable, use default method
Always use the default method:	Default Security
7 August are the deladit method	beloak secanly .
Require certificate revocation checking to succeed	whenever possible during signature verification
✓ Use expired timestamps	
☐ Ignore document validation information	
ignore document validation information	
Verification Time	Verification Information
Verify Signatures Using:	Automatically add verification information when
 Time at which the signature was created 	saving signed PDF:
Secure time (timestamp) embedded	 Ask when verification information is too big
in the signature	○Always
○ <u>C</u> urrent time	○ Never
Windows Integration	
Trust ALL root certificates in the Windows Certificate S	tore for:
✓ Validating Signatures	
✓ Validating Certified <u>D</u> ocuments	
Selecting either of these options may result in arbi	trans material being treated as trusted content
	trary material being treated as trusted content.

Click Ok. Now the Digital signature validating is "ON" by default.
